## Advance bulletin

### 1971 CENSUS OF CANADA

## Bulletin préliminaire

### RECENSEMENT DU CANADA 1971

#### SUMMARY OF HOUSEHOLD CHARACTERISTICS

This advance report presents summary data relating to characteristics of household heads and household status of non-family persons, derived from the 1971 Census of Canada. Figures are shown for the following areas:

- (i) Canada and provinces, urban, rural non-farm and rural farm (Tables 1, 3, 5);
- (ii) census metropolitan areas (Tables 2, 4, 6).

More detailed information on these subjects will be issued at later dates as part of the regular volume series of final reports of the 1971 Census. The purpose of this report is to make summary totals available at the earliest possible date for the larger areas and urban centres.

Definitions on which these statistics are based appear on page 12 of this bulletin.

Each bulletin of the 1971 Census volume series will include measures of reliability in the form of estimates of the mean square error for sets of characteristics covered in that bulletin. The user interested in obtaining an indication of the reliability of these advance data should refer to the appropriate bulletin in the volume series.

All figures in this report have been subjected to the confidentiality procedure introduced in the 1971 Census to prevent the possibility of associating small figures with any identifiable individual. Briefly, it involves the random rounding of all last or unit digits. Since totals are independently rounded, they do not necessarily equal the sum of rounded figures in distributions. Also there may be slight differences between comparable figures in this report and those in other census bulletins. This technique will be described in the reports of the 1971 Census volume series.

#### STATISTIQUES SOMMAIRES DES CARACTÉRISTIQUES DES MÉNAGES

Ce bulletin préliminaire présente des données sommaires sur les caractéristiques des chefs de ménage et sur le lien avec le chef de ménage des personnes hors famille. Ces chiffres, recueillis dans le cadre du recensement du Canada de 1971, portent sur les secteurs suivants:

- i) Canada et provinces, régions urbaines et régions rurales non agricoles et rurales agricoles (tableaux 1, 3, 5);
- ii) régions métropolitaines de recensement (tableaux 2, 4, 6).

Des données détaillées paraîtront à une date ultérieure dans la série des volumes du recensement de 1971. Ce bulletin vise à présenter le plus tôt possible des données sommaires pour les grands secteurs géographiques et les centres urbains.

On trouvera en page 12 les définitions sur lesquelles sont fondées les statistiques.

Chaque bulletin de la série des volumes du recensement de 1971 renfermera des mesures de fiabilité sous la forme d'estimations de l'erreur quadratique moyenne pour les caractéristiques prises en compte. L'utilisateur désireux d'obtenir une indication de la fiabilité de ces données préliminaires devra consulter le bulletin approprié de la série des volumes.

La confidentialité de toutes les données présentées ici est assurée par la méthode utilisée au recensement de 1971 pour interdire la possibilité d'associer des chiffres de faible importance à une personne en particulier. Brièvement, cette méthode consiste à arrondir au hasard tous les derniers chiffres, c'est-à-dire les chiffres des unités. Comme tous les chiffres ont été arrondis individuellement, leur somme n'est pas nécessairement égale aux totaux indiqués. Il peut également y avoir de légères différences entre des chiffres comparables de cette publication et ceux d'autres bulletins du recensement. Cette technique sera exposée dans les bulletins de la série des volumes du recensement de 1971.

(1) Comprend les personnes hors famille dans les ménages collectifs.

## DEFINITIONS

### Household

For census purposes, a household consists of a person or group of persons occupying one dwelling. It usually consists of a family group with or without lodgers, employees, etc. However, it may consist of two or more families sharing a dwelling, of a group of unrelated persons or of one person living alone. Every person is a member of some household and there is a one-to-one relationship between households and occupied dwellings except in the case of certain special households, such as those of military and diplomatic personnel stationed overseas, from which no housing information was collected.

The census classifies households into two main groups: (1) the household which consists of one person or a small group of persons occupying an ordinary dwelling, usually spoken of as a private household, and (2) the "collective" type household which includes hotels, large lodging-houses of 10 or more lodgers, institutions, hospitals, or military camps, lumber camps and other establishments of a similar nature. Unless otherwise specified, these "collective" type households are excluded from household reports.

### Dwelling

A dwelling is a structurally separate set of living quarters with a private entrance from outside or from a common hallway or stairway inside the building; i.e., the entrance must not be through someone else's living quarters.

### Household head

For census purposes, every household must have a head. This is the husband if both husband and wife are present, the parent (regardless of age or dependency) if living with unmarried children, or any member of a group sharing a dwelling equally. The household head may or may not be the family head as well. A person occupying a dwelling alone is always reported as the head.

### Age of household head

Age classifications in the census are based on the number of completed years of age at last birthday prior to June 1, 1971.

### Marital status of household head

The term marital status refers to the conjugal status of the household head such as single, married, widowed or divorced. Unless otherwise specified, data for "separated" are included with married.

### Household status

This term refers to the relationship(s) of persons in the household to the household head. A person may be related to the head through blood or marriage (e.g. wife, son or daughter, brother-in-law, etc.) or he may be unrelated (e.g. lodger, employee, etc.).

### Non-family persons in households

This term refers to those living alone; those living with unrelated individuals and those living with relatives but not in a husband-wife or parent-unmarried child relationship.

### Lodger

A lodger is a person living in a household who is unrelated to the head of household by blood or marriage, and is other than a partner or employee. An unrelated child for whom pay was received (e.g. a ward of the Children's Aid) is reported as a lodger.

### Partner

A partner is a person who is unrelated to the head of household and shares accommodation on a partnership basis.

### Employee

An employee is a person who is employed by the head of household and resides in the same household (such as maid, nurse, or hired farm labourer).

### Inmate

An inmate is a person other than an employee, for whom care or custody is being provided, such as persons residing in mental hospitals, homes for the aged, penitentiaries or other institutions.

## DÉFINITIONS

### Ménage

Aux fins du recensement, un ménage est formé d'une personne ou d'un groupe de personnes occupant un logement. Il se compose ordinairement d'un groupe familial, avec ou sans chambreurs, employés, etc. Il peut aussi se composer d'un groupe de personnes non apparentées, de deux familles ou plus partageant le même logement ou d'une personne seule. Toute personne est membre d'un ménage quelconque et le nombre de ménages est égal au nombre des logements occupés, sauf dans le cas de certains ménages spéciaux (les ménages des militaires et des membres du corps diplomatique en poste outre-mer, par exemple, pour lesquels on n'a pas recueilli de données relatives au logement).

Les ménages sont divisés en deux groupes principaux: 1) les ménages privés, composés d'une personne ou d'un petit groupe de personnes occupant un logement ordinaire, et 2) les ménages collectifs (hôtels, grandes maisons de chambres de 10 chambreurs ou plus, institutions, hôpitaux, camps militaires, camps de bûcherons et autres établissements semblables). Sauf indication contraire, ces ménages collectifs ne sont pas pris en compte dans les bulletins sur les ménages.

### Logement

Ensemble structurellement distinct de pièces d'habitation ayant une entrée privée donnant sur l'extérieur ou sur un corridor ou un escalier commun à l'intérieur, c.-à-d. que l'entrée doit donner accès au logement sans qu'on ait à passer par les pièces d'habitation de quelqu'un d'autre.

### Chef de ménage

Aux fins du recensement, chaque ménage doit avoir un chef. Le chef est l'époux lorsque les deux conjoints sont présents; le père ou la mère (quel que soit l'âge ou la dépendance) s'il n'y en a qu'un des deux avec des enfants célibataires; ou n'importe quel membre d'un groupe se partageant un logement à parts égales. Le chef de ménage peut être ou peut ne pas être aussi le chef de famille. Une personne occupant seule un logement est toujours le chef.

### Âge du chef de ménage

Âge, en années révolues, au dernier anniversaire avant le jour du recensement.

### État matrimonial du chef de ménage

État conjugal: célibataire, marié, veuf ou divorcé. Sauf indication contraire, les personnes "séparées" sont comptées avec les personnes "mariées".

### Lien avec le chef de ménage

Lien de chaque personne avec le chef du ménage dont elle est membre. On peut être apparenté au chef de ménage par le sang ou par alliance (par ex., épouse, fils ou fille, beau-frère, etc.) ou n'avoir aucun lien de parenté avec lui (par ex., chambreur, employé, etc.).

### Personnes hors famille

Personnes seules; personnes vivant avec des parents auxquels elles se rattachent par d'autres liens que des liens conjugaux ou des liens de filiation, si elles ne sont pas mariées.

### Chambreur

Membre d'un ménage qui n'est pas apparenté (par le sang ou par alliance) au chef de ménage et qui n'est pas un associé ou un employé. Un enfant non apparenté pour la garde duquel il est versé une rétribution (par ex., un pupille de l'Aide à l'enfance) est considéré comme "chambreur".

### Associé

Personne qui n'est pas apparentée au chef de ménage, mais qui partage son logement à titre d'associé.

### Employé

Personne qui est employée par le chef de ménage et qui réside dans le même logement (bonne, infirmière, ouvrier agricole, par exemple).

### Pensionnaire d'institution

Résident d'un logement collectif, autre qu'un employé, qui reçoit des soins ou qui est en détention (par ex., personne résidant dans un hôpital pour malades mentaux, un foyer pour vieillards, un pénitencier ou un autre établissement).
